PROFESSIONAL SUMMARY

Software Developer with 3.2+ years of extensive experience in enterprise ERP customization and high-performance web architecture. I specialize in designing and deploying complex business applications, with deep technical proficiency in the **Odoo ecosystem (ORM, OWL, XML)** and **Python-based backend engineering (Django, DRF)**. I have a proven track record of architecting scalable solutions for HRM, CRM, Manufacturing (BOM), and E-commerce sectors, successfully delivering end-to-end features from backend business logic to interactive frontend dashboards. Beyond core development, I am skilled in deployment using **Docker, Nginx, and Gunicorn** and am actively expanding my expertise in **AI/ML and data-driven intelligence**.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript

Backend Development: Django, Django REST Framework, Odoo, Node.js, Express.js

Frontend Development: React.js, OWL (Odoo Web Library), HTML, XML, CSS, Bootstrap, Tailwind CSS

ERP and Platforms: Odoo, WordPress

Databases: SQL, PostgreSQL, MySQL, MongoDB

Data Analysis and Visualization: NumPy, Pandas, Matplotlib, Seaborn, Chart.js

Version Control : GitHub

Infrastructure & Deployment: Docker, CI/CD, Nginx, Gunicorn, VPS (Virtual Private Server Management), cPanel

WORK EXPERIENCE

Software Developer | Xsellence Bangladesh Ltd. | Banasree, Rampura, Dhaka | *October 2025 - Present*

- Develop and customize modules for **Sonali Aansh Ltd.**, primarily focused on HRM and Purchase Management workflows.
- Build custom features for **The Daily Star** Event Management System, including event booking, registration, workflow customization, access control, and security rules.
- Develop and customize modules for **Nadia Furniture, Ultima Bangladesh** HRM and Manufacturing BOM.
- Develop and customize modules for **Badamtoli** Inventory, Sales workflow customization.
- Develop and customize Parking Management and Education Management systems, including operational workflows, user access, reports, and business process automation.
- Develop Dashboards, Dynamic Reports, XML views, and OWL frontend components for business operations and management visibility.

Software Developer | TEX Fasteners | Adamjee Export Processing Zone, Narayanganj | *June 2024 - October 2025*

- Developed and maintained responsive web applications using Python, Django, JavaScript, XML and Bootstrap.
- Customized Odoo modules to meet business requirements across Sales, CRM, dashboards, reporting, and operational workflows.
- Created JavaScript-based dashboards and business transaction reporting systems for dynamic data visualization.
- Implemented ERP solutions to improve system integration, operational efficiency, stability, and user satisfaction.
- Provided ongoing support, troubleshooting, and issue resolution for ERP users and internal stakeholders.

Web Developer | Chartered Skills Ltd. | Mirpur, Dhaka | *May 2023 - May 2024*

- Developed responsive websites using HTML, CSS, JavaScript, and React.js with cross-browser and mobile compatibility.
- Translated wireframes and design mockups into functional web pages aligned with brand and business objectives.
- Integrated backend APIs using Django and Express.js and connected databases including MySQL and MongoDB.
- Supported WordPress web applications and dynamic content management requirements.

PROJECTS

Special baby Shop BD | E-commerce and Order Management Platform

- Built admin dashboard features for managing users, vendors, products, purchases, inventory, sales, orders, payments, shipping, and logistics operations.
- Developed a complete e-commerce and order management platform with user registration, login, profile management, product browsing, order placement, order history, and invoice features.
- Developed Purchase Management, Sales Management, and Inventory Ledger modules to track stock movements, product availability, purchase records, sales transactions, and operational reports.
- Implemented server-side data loading, API-driven workflows, and business logic for order processing, payment handling, inventory updates, and customer service operations.

Technology: Django REST Framework, React.js, MySQL, Redis, Celery, Tailwind CSS, HTML, Nginx, Unicorn, VPS

Aurabella | E-commerce, POS, and Order Management Platform

- Developed a complete e-commerce, POS, and order management platform with user registration, login, profile management, product browsing, order placement, order history, and invoice features.
- Built admin dashboard features for managing users, vendors, products, purchases, inventory, sales, orders, payments, shipping, and logistics operations.
- Developed Purchase Management, Sales Management, POS, and Inventory Ledger modules to manage retail sales, stock movements, purchase records, sales transactions, product availability, and operational reports.
- Implemented live notification features using WebSocket to provide real-time updates for orders, sales activities, inventory changes, and admin operations.
- Implemented server-side data loading, API-driven workflows, and business logic for order processing, payment handling, inventory updates, POS transactions, and customer service operations.

Technology: Django REST Framework, React.js, MySQL, Redis, Celery, WebSocket, Tailwind CSS, HTML

The Daily Star | Event Management, Invoicing, and Accounting System

- Developed and customized Odoo ERP modules for The Daily Star Event Management System, covering event booking, registration, approval workflows, and operational tracking.
- Implemented event workflow customization, access control, security rules, and role-based permissions to manage user responsibilities across the event lifecycle.
- Developed invoicing features to generate and manage customer invoices from event bookings, including invoice tracking and integration with accounting workflows.
- Customized accounting-related processes to support event billing, payment tracking, journal entries, and financial reporting requirements.
- Built and customized XML views, forms, list views, menus, actions, and reports to improve usability and business process visibility.

Technology: Odoo, Python, XML, OWL JS, PostgreSQL

Nadia Furniture Ltd. | HRM and Manufacturing BOM System

- Developed and customized Odoo ERP modules for Nadia Furniture Ltd., focused on HRM and Manufacturing BOM management.
- Customized HRM workflows including employee management, attendance, leave management, payroll, approval processes, and employee-related reporting.
- Developed Manufacturing BOM features to manage product components, materials, work centers, production requirements, and manufacturing-related operational data.
- Built custom XML views, forms, list views, menus, actions, access rights, security rules, and dynamic reports for HR and manufacturing operations.

Technology: Odoo, Python, XML, PostgreSQL

EDUCATION

Bachelor of Science in CSE: Z.H. Sikder University of Science & Technology - Completed in 2021

Higher Secondary School Certificate: Govt. Mohammadpur Model School & College - Completed in 2016

Secondary School Certificate: Purba Damudya Adarsha High School, Shariatpur - Completed in 2013

COURSES AND TRAINING

AI/ML Expert | Phitron.io | Ongoing

- **Core Competencies:** Python for Data Science, NumPy, Pandas, Matplotlib, Seaborn, Feature Engineering, and Statistical Data Analysis.
- **Advanced Focus:** Currently mastering Supervised/Unsupervised Machine Learning, Deep Learning, Natural Language Processing (NLP), and end-to-end model deployment.
- **Practical Application:** Building predictive models and data-driven pipelines using real-world datasets.

Full Stack Web Development with MERN: Institute: OSTAD

- Technical Skills: JavaScript, HTML, CSS, Bootstrap, React.js, Redux, Node.js, Express.js, MongoDB.
- Focus: Real-world web application development, API fundamentals, and API consumption.

Software Development: Institute: PHITRON

- Technical Skills: C, C++, Python, Database, Algorithm, SQL, OOP, Django, Django REST Framework, PostgreSQL, Bootstrap.
- Focus: Software development fundamentals, web development, API usage, and database-backed applications.

AWARDS

Hero Card: For HR Dashboard design and development in Odoo software. Issued by Md. Shahid Hossain, Assistant VP, TEX Fasteners.
